

INTEGRITY ACA

The perfect choice for 360° Affordable Care Act Compliance tracking and reporting.

You need help untangling ACA compliance requirements. We make it easy for you. As your ACA software partner, we'll equip you with the software tools, support and expertise you need to be ACA-compliant with the IRS.

The Integrity Data ACA Compliance Solution supports you with ACA compliance and penalty risk management in a way that is:

"... simple to learn and very efficient..."

Integrity User

"The benefit of not having to manually track hours is a huge time savings for us. Our human capital can be utilized on more pressing company objectives to get the maximum return on investment. We have used other solutions that were not as versatile or flexible."

Dana Ruimveld | HR
Generalist, Cheyenne
Petroleum Co.

Easy

Easy to use with quick onboarding tools and powerful automation capabilities, our fully-supported solution won't require extensive training or maintenance. Our team puts its focus on updates and service.

Proven & Reliable

Since the introduction of ACA we've helped more than a thousand companies fulfill their requirements successfully.

Comprehensive

Not only do we offer everything you need to fully manage year-end ACA compliance reporting requirements for the IRS, but the solution also provides easy penalty risk management with eligibility tracking and affordability monitoring all year long.

Affordable

Our solution helps you avoid the stiff penalties the IRS imposes for lack of compliance. In addition, we make compliance easy so you'll avoid the cost of hiring internal personnel to do what our systems can do for you.

EASY

Your people. Our priority.*

Quick Onboarding

Our unique set-up wizard can have you onboarded in less than one day.

Business Intelligence At-A-Glance

Team members benefit from a central dashboard, giving them at-a-glance awareness of key performance indicators. Alerts notify you of conditions to review or address so you can take appropriate actions in a timely manner. Get up-to-date reports around eligibility within seconds rather than hours or days.

Role-Based Security

You can use predefined or user-defined roles to grant access to specific areas of the system including specific types of information and reports.

Easy Step-Through Year-End Process

- E-file the 1094-C with just the push of a button.
- E-mail or snail mail the 1095-C forms to the employees for a nominal fee, using our fulfillment service.

No Worries About Software Updates

With our ACA solution being in the cloud, you do not have to worry about installing software updates. Our team automatically updates the software as the regulations and requirements change.

Data Integration

Three easy ways of integrating with your system of record:

- Excel file import
- Data connectors for your payroll system (if available)
- Application to Application (API / web services)

No Internal Experts Required

Our team of ACA subject-matter experts help you understand the latest IRS guidelines around ACA compliance for employers and how to avoid the penalties for noncompliance through many resources including: educational and software related collateral, Help Desk Support to answer technical questions and concerns, a Knowledge Base site available 24/7, monthly newsletters and user group lessons.

PROVEN & RELIABLE

We have been immersed in ACA compliance since early 2012 and have consistently been a step ahead. We released and installed our first commercial version in February 2014, two weeks after the IRS issued final regulations. Since then, we have continuously added functionality and stayed current with the many changes in the law and the related IRS regulations. For the 2015, 2016 and 2017 reporting season, Integrity Data successfully generated all required forms for more than a thousand clients.

This experience translates not only to comprehensive and reliable software, but also to resources you'll have at your fingertips.

"The team is knowledgeable, sincere, professional and intelligent; we love working with them.

Their ACA solution has made our payroll manager extremely happy.

They make it all so easy!"

One Solution for the Most Challenging Components Of IRS Compliance with the ACA:

- Complete and file required year-end IRS forms with ease using our ACA Reporting Services.
- Ensure year-round monitoring of factors affecting penalty risk.

Year-End ACA Reporting Services

IRS Form 1095-C: Auto-populate, code, print and email or mail

- Our solution automatically identifies which employees must receive IRS Form 1095-C and then auto-populates and codes this form. No manual input or editing of data for any individual employee is needed.
- At year-end, you can quickly generate 1095-C forms for your employees and distribute them in printed mail or email form, whichever you choose.

IRS Form 1094-C: Generate, print and electronically file

Whether you need a hard copy of Form 1094-C (the transmittal of Form 1095-C) or an electronic one, the solution generates the file for you.

- You can e-file directly from within the ACA solution. This is required for any company with 250 or more 1095-C forms.
- The solution aggregates and processes employee records according to IRS rules for commonly controlled and affiliated groups, providing consolidated reporting on Form 1094-C.

Penalty Risk Management

Continuous monitoring of employee eligibility for coverage

The solution determines and documents – by month and every month – which employees are eligible for health insurance so that you know when to make an offer of coverage.

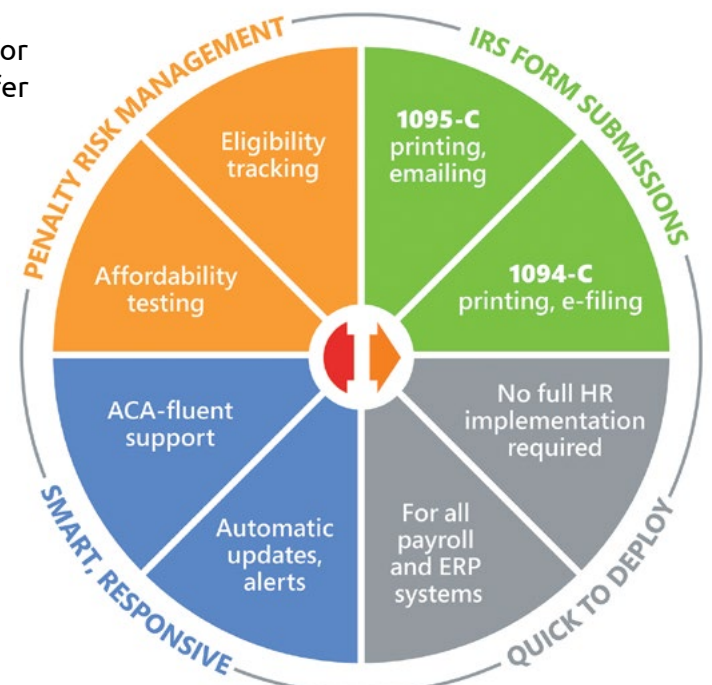

Continuous testing for the affordability of coverage offered

To make sure the health plans you offer meet the ACA affordability standards for every eligible employee, the solution calculates each employee's contributions according to any of the three allowed safe harbors.

“Working with Integrity Data has put an end to our 1095-C nightmare. We had been using [another ACA solution] which was moving so slowly we thought we might not meet the deadline. Integrity Data’s ACA Compliance Solution made the process easy, and everyone on staff had the knowledge necessary to make us feel confident in the service.”

Katherine Coe
Benefits Analyst, AppRiver
An email and website security firm based in Gulf Breeze, FL

AFFORDABLE

Your people. Our priority.™

Avoid Penalties for Non-Compliance

IRS penalties for non-compliance with the ACA requirements are costly. Not only does Integrity ACA make compliance easier, but you can be assured that our team and software is up-to-date with changes as they occur.

No New Hires Needed

When you use our solution for ACA compliance, you don't need your own team spending valuable time developing and implementing systems. Our solution includes technical support and ACA compliance specialists who are aware and fully-engaged in process and guideline changes that may affect you.

"This product has worked great for us and we will remain clients."

Dana Ruimveld | HR Generalist, Cheyenne Petroleum Co.
