Employee E-Mail Suite

Automatically and securely e-mail direct deposit earnings statements and W-2 statements from Microsoft Dynamics® GP Payroll

“Employee E-Mail Suite has been a great time saver for us. No more folding, stuffing, sorting, and mailing paper copies of our direct deposit earnings statements!”

Sandy Greenwell, Accounting and Payroll, ETSU Physicians & Associates

In just 3 clicks, automatically and securely e-mail direct deposit earnings statements, W-2 statements and any other communication to your employees.

Immediate benefits:

- You'll save time and money, often with a return on investment in just a few months—saving postage costs is just the beginning
- Provides access to statements earlier than traditional mail
- Greatly reduces the chance that a statement will get lost, misdirected, or delayed during delivery or misplaced after the employee receives it
- Ensures employees can receive and view statements even if they are traveling or away from their mailing address
- Allows employees to retrieve their statements at any time of day or on weekends

Specify timing

Send out the E-Mail Earnings Statements after posting Payroll checks or a day or two later when the employee wages are deposited in the bank.

Enhanced security

Statements are sent as a password protected document (an encrypted Adobe PDF) that requires an employee-specific password to open. They do not require the employee to log on to a web portal to view the statements.

A cool, quick way to distribute your earnings statements—

Attach other useful documents, including employee-specific files, to each e-mail automatically

Other employee-specific files, company documents, or notices (“envelope stuffers”) can be easily attached to the e-mail.

Re-issue an employee’s W-2 and statements with ease

You have an optional archiving process that will store employees’ W-2s in the event that a re-issue is required.

Specify which employees will receive e-mailed statements and let this software do the work for you

Employee E-Mail Suite automatically knows who will receive their earnings statements via e-mail (employees with an e-mail address in Dynamics GP and currently on direct deposit who have not opted out).
