

## What your colleagues are saying about Best Money Moves

### **MRIS, a Bright MLS, Rockville, MD**

"We're trying to find way to help our employees reduce the stress they feel around income, managing their financial lives and their jobs. Best Money Moves was the right move for our employees. We've had it since September, 2017 and Best Money Moves is terrific! Our employees love it and I love how easy it is to use. I would recommend it to every workforce because nearly all employees are worried about money."

*Monica Goodwyn | VP Human Resources and Administration, MRIS, a Bright MLS*

### **Delta Dental of Colorado, Denver, CO**

"Delta Dental of Colorado has a strong mission to serve Colorado and improve the oral health of the communities we serve. We can't achieve our mission without the commitment and dedication of our employees. They are the lifeblood of our organization. I am also concerned that as we think about the elements of wellbeing, we have historically focused just on health and physical wellness, and built our corporate wellness programs accordingly. But our commitment to our employees needs to be broader than that. It needs to include the best tools to help them boost their financial wellness and support them in their overall health and wellbeing.

We are ready to sign a contract with Best Money Moves and add the BMM tool to the DDCO vitality program so that our employees know that we care not only about their physical wellness, but also about their financial wellbeing. We want them to have the best tools to help them in that journey. We are excited to see how the use of this tool helps our employee population focus more on their financial health and hopefully lower the stress that comes from financial challenges in life.

I have watched the development of the BMM tool with keen interest and feel confident that this tool is best in class but also has the potential to be a game changer for individuals in a very personal way."

*Helen Drexler | President and CEO, Delta Dental of Colorado*

### **Down Payment Resource, Atlanta, GA**

We are pleased to provide our associates with access to Best Money Moves. Our leadership team was impressed with its focus on reducing financial stress, developing budgets, and providing access to comprehensive content across a wide range of financial topics. Best Money Moves serves up relevant content depending on the user's interests and stress categories. Plus, we like that the content is completely independent and unbiased. Best Money Moves allows users to learn to manage their finances with greater confidence.

Our company sees tremendous demand for relevant, online content and resources. In fact, in our recent survey of future and recent homebuyers, respondents said credit score, retirement and credit card bills ranked highest as a source of stress. And, 80 percent said they would or may be interested in using an online financial wellness tool to help improve their stress levels.

*Tracey Shell | Vice President, Director of Marketing Communications*

## **Kenneth Young Center, Chicago, IL**

"Best Money Moves is an innovative, interactive and fun program that will engage your workforce in financial education. The majority of our employee population are young and experiencing first-hand living on their own, struggling to save while juggling living expenses. Best Money Moves helps our employees navigate these financial challenges. I highly recommend this program to compliment your employee's benefit plan."

*Cathy-Ann Romero | Human Resources Director, Kenneth Young Center*
