

## Effective Financial Wellness Programs for Your Employees

Helping employees with their financial wellness is the right thing to do. Setting up company financial wellness programs focused on reducing stress in the workplace helps your employee experience, engagement, retention and ultimately, your business profitability.

Integrity Data can help with your financial wellness business strategy.

### Integrity Data can help

We have a 20+ year history of making “Your People. Our Priority.” As an employee financial wellness broker, we want to provide organizations with a one-stop shop for well-researched, proven financial wellness tools and the best financial wellness programs so you and your employees can thrive.

We do not offer 401K plans – our focus is on **financial wellness NOW** so planning for financial wellness LATER becomes possible.

### We believe in an approach that is

- **Holistic:** going beyond education and budgeting and actually putting money into the pockets of your employees
- **Flexible:** one size does not fit all. We provide multiple tools so you can pick and choose what best fits your workforce
- **Win-win:** when employees have financial peace of mind, employee engagement and retention goes up at no or low cost to you – that’s a win-win

### Our employee financial services

GotZoom provides student loan repayment assistance, specializing in finding federal repayment programs to reduce your employees’ student loan burden.

HooPayz works as an extension of your HR team to be your company and employee advocate, providing radical service to reduce out-of-pocket spending, improve workplace productivity, and increase understanding of health benefits.

Best Money Moves, a mobile-first service designed to help people measure financial stress and then dial it down in order to get control of their financial lives.

Every employee deserves financial peace of mind.
