- **General Ledger**

Manage all payroll processing inside your ERP solution.

Quickly and easily set up and onboard employees.

Access and store employee data in one, secure place.

Automate tax calculations, ACA compliance and reporting.

Work faster in a clean, intuitive and familiar user interface.

Empower employees with convenient self-service tools.

PAYROLL NOW *Features*

Feature:	What it does for you:
Assisted Setup Wizard	The Assisted Setup Wizard quickly walks you through the key configuration steps for your Payroll NOW app within Business Central.
Automatic Tax Updates	Federal and State taxes are automatically updated.
Certification Management	Manage organizational risk by maintaining employee certifications and qualifications.
Deduction & Benefit Management	Set up and manage employee deduction calculations and employer contributions by employee or Payroll Group.
Direct Deposit	Automatic direct deposit and ACH file export with ability to email paystubs to employees.
Easy Payroll Processing	Fast Payroll Processing with simple time import and batch processing. Can also accommodate job cost reporting and employees working in multiple states.
Employee Onboarding	Track applicants and onboard new employees with ease.
Employee Self-Service	Empower employees to view pay stubs, submit requests for time off and enroll in benefits with Payroll NOW by Integrity Data.
Employee Setup Templates	Create Employee Templates to streamline your onboarding process and change management for earnings, deductions, benefits and paid time off.
Employee Setup Wizard	The Employee Setup Wizard lets you quickly and safely add a new employee to your company without missing a step.
Employer Reporting for ACA Compliance	Eliminate penalty risk with automated ACA compliance: eligibility reporting, IRS form creation and e-filing.
Electronic Tax Filing	Let Payroll NOW by Integrity Data complete the payroll process by automating tax filing, including year-end filing.
Labor Distributions	Create user defined Dimensions in Business Central to more specifically allocate payroll costs to defined cost center Dimensions.
Overtime Rules	Calculate overtime hours and blended overtime rates.
Posting Direct to GL	The Payroll Posting process updates the General Ledger based on Payroll Posting Setup.
Posting Groups	Quickly and accurately allocate payroll costs with the use of Posting Groups within Payroll NOW by Integrity Data.
Posting to Vendor Ledger	When deductions and taxes are withheld, Payroll NOW by Integrity Data updates General Ledger accounts as well as Vendor accounts in Business Central.
Project Management Integration	Update Project Management information including Job, Tasks and Resources from Payroll NOW.
Robust Reporting	Complete suite of required Payroll and HR reports plus user-defined, configurable reports. Additional reporting available through integration with Solver BI360.
Vacation, Sick and Holiday Time Off Tracking	Set up and manage employee paid time off including maximums, and have balances update automatically during payroll processing.

Integrity Data has been a leading solution provider and partner for Microsoft Dynamics payroll and human resources solutions for more than 20 years. From the software we develop to the services we provide to the problems we solve—innovations like Payroll NOW are always inspired by people like you.

Making sure you receive the best experience and value in the business isn't just our passion, it's our promise.
