

Advanced Payroll Code Dimension & Advanced Payroll Code Position / Union / Jobs

Modified on: Fri, 9 Dec, 2022 at 8:38 AM

Advanced Payroll Code Dimension & Advanced Payroll Code Position / Union / Jobs

With this feature you can tie a dimension code to a payroll code and have it overwrite the expense allocation values.

To access this feature, set 'Advanced Payroll Code Dimensions' and / or 'Use Advanced Payroll Code Position / Union / Jobs' to true in the Additional Payroll Setup Table.

Then you can access the 'Advanced Dimension Setup' tabs in the payroll code setup card and set 'Overwrite Expense Allocation Dimension Values' to true.

Use Advanced Payroll Code Dimensions - When set to true, there will be a new section shown on the Payroll Code Setup Card that will allow dimensions to be set by payroll code. This dimension will override the default payroll line dimensions from the employee card. Only the dimensions codes selected in the payroll setup table will be visible.

Use Advanced Payroll Code Position / Union / Jobs - When set to true, there will be a new section shown on the Payroll Code Setup Card that will allow positions, jobs, and unions to be set by payroll code. These will overwrite the values in the expense allocation table behind the payroll line.

Additional Payroll Setup

Actions

General

- ☐ Password Protect PDF Email Attachments
- ☐ Use Salary Rate if Higher than Pay Matrix
- ☒ Use Advanced Payroll Code Dimensions
- ☒ Use Advanced Payroll Code Position / Union / Jobs
- ☐ Reset Payroll Lines on Recalculation
- ☐ Sort Payroll Lines Based on Calc. Order

Payroll Code Setup Card

✖ Remove Uneditable Lookup Codes

[Federal Exemptions >](#)

[State / Local Exemptions >](#)

[Additional Employer Tax Exemptions >](#)

Advanced Dimension Setup

- ☒ Overwrite Expense Allocation Dimension Value
- Area Code
- Department Code
- WORK SHIFT
- Project Code
- JOB TASK NO.

Advanced Position / Union / Job

- Position Code
- Union Code
- Position Department
- Job No.
- Position Category
- Job Task No.

When set to true, the dimension value in this field will overwrite the dimension value(s) in the expense allocation table behind the payroll line. If this is false, the dimension value in this field will still overwrite the payroll line dimension value, but if the expense allocation dimension value(s) are not blank on this dimension code, those will still be the highest priority when posting.
