

Canadian T4 Dental Plan

Modified on: Mon, 20 Nov, 2023 at 9:54 AM

Canadian T4 Dental Plan tracking is available in app 22.35 There are two fields: one on the company card and one on the employee card. Please remember this is for employees on 12/31 so if people terminate before then the code needs to be different than everyone else.

Here are screen shots of both places. Please remember that the field on the employee card is what the employer offers and not what the employee selects.
